Salamander Safes.

CAUTION TO THE PUBLIC.—

RICH'S PATENT FIREPROOF SAFES—The recent robbers of Gessier's Safe, in the store of J. W. Smith & Co. No. 170 Front st., and the wholesale robbers of Gayler's Safes in Buffalo, will, we hope, be a cauton to the public against purchasing Salamander Safes from any but the original patentees. These men, by using inferior from, and the cheapeast kind of locks, and filling Safes with a portion of our Salamander preservation, mixed with other materials, have advertised and sold thomas "genuine Salamanders," the consequence has been a loss to the public of \$20,000 in these spirious Safes within the last three days.

The Buffalo telegraphic report of 29th October, showing the facility with which the locks on Gayler's Safes were picked, forms a striking contrast to the report in The Journal of Consence of 6th October, where it appears one of Rich & Co.'s Safes was tried by burglars in the store of N. E. James & Co., No. 23 Chiff-st., during the whole of Sunday, the 3th of October, but the lock resisted all their ingenuity.

The accompanying letter, just received from Mobile, is an acditional proof of the supersority of our Safe over all others.

Mesors ROFF, STEARNS & Co., New-York.

Dear Size I has inght our store was entered by burglars.

They came down by a rope from Gym's chimner on to our
roof, then forced off the sociate and came down the laider.

They put your Safe to a hard trial, and have attempted to
force it with a crowbar, then used a cold chisel and sledge
hammer, but without success; finally, they tried files, but
in vain. The "fring stump" in the lock seems to have
puzzled them, and has given us more confidence than ever
caffer breaking some of their implements in the lock, and
barging some cutiery, they decamped, leaving us better
satisfied with the loss than if the attempt on the Safe had
never been made.

You'z, respectfully.
